

What is it?

Transportation Infrastructure Investment Fund, or TIIF, is a **grant** available to businesses to help offset their transportation improvement costs. TIIF is administered by DelDOT in cooperation with the Department of State's Division of Small Business (DSB).

Who is eligible?

New or expanding businesses in Delaware that propose to create a significant number of direct, permanent, quality full-time jobs. **Residential projects are not eligible.**

- The proposed project must have at least one Public Endorser who supports and recommends the project, such as a municipal, county or state elected official, or a state agency.
- Additional requirements include that the Applicant must be a properly existing and licensed entity recognized by the State, in good standing, financially stable, and able to meet certain employment standards.
- The proposed project must provide a public benefit.

What type of infrastructure is eligible for Grant money?

The proposed transportation infrastructure improvement(s) **must be located within the public right-of-way**, or on public land, or on land that will be dedicated to public use as part of the project and must serve a public purpose.

How do I apply for the Grant?

Submit a completed TIIF application by the specified deadline, in the application portal located on the TIIF website.

For more information, application details or to contact DelDOT's TIIF Coordinator,

visit: <https://de.gov/TIIF>
contact: deldot_tiif@delaware.gov

We were very happy with the outcome of our TIIF grant application. The construction of the cul-de-sac on Downing Drive has created a new look and much improved access for this light industrial area. In conjunction with the cul-de-sac, we completed our new shop and office for Eastern Highway Specialists. The entire area is now a vibrant business park that will generate more development and more jobs. - **Bob Field, CHRF LLC**
